I now:

Dear Mr Herschel,

I am very much  
obliged by your interesting  
communication

But if the observations  
are sufficiently good to calculate  
the distance of the shooting  
star, to a mile or even 10 miles  
it will be necessary to take  
account of the penumbra

and I doubt whether it will  
do to substitute the cylinder  
for the cone, I merely submit  
this for your consideration as I  
have not the right apparatus and  
am not competent to form  
an opinion

You have arrived safely  
yesterday

With very kind regards

Dear Mr Thomson

Having been in the

your letters together.

Mr Woodall thought  
it better not to divide, &  
so did most of our friends,  
but I confess I doubt.

I hope your cold is with

I have not yet forwarded

I have only just returned from

My dear Sir William

I am much  
obliged for your letter.  
Unluckily the  
adjournment during  
the ministerial crisis  
deprived me of the

chance of bringing  
on our Bill until  
the 6 May, & even  
then it does not

My dear Sir William

Thanks for your letter. I  
am not at all anxious to be  
one of the Commissioners, & under  
any circumstances could not of  
course propose myself. That Commission  
is I think an excellent one.

Which of the Round Towers  
do you think would be the best

to put in the Schedule? It  
would certainly be well to  
insert one. You are no doubt  
aware that the list as it  
stands was drawn up for  
Ireland, by the R. I. A.

Any monument which  
comes under the definitions  
in Clause 3 can be taken  
under the wing of the  
Commissioners, subsequently.

I shall be much interested

in Beranger's memoirs. Any  
account of the destruction of  
monuments, especially if recent,  
would help us very much.

I think your point is  
better..

My dear Wilde,

It would help us  
very much with the Ancient  
Monuments Bill if some of  
the owners of monuments  
mentioned in the Schedule  
would petition in favour of  
the Bill. Do you know any

of them & do you think  
this could be managed?

My dear Mr Osler

I am very much  
obliged to you for the  
clause. I suppose I ought  
to submit it to Lord  
Granville, & I will then  
unless he sees any  
objection which I do not  
Lubbock 7/6

anticipate, put it  
on the notice paper.

Do you not think  
that it would be well  
to include the Public  
Schools on the one hand,  
& Durham University  
on the other?

Believe me

P.S. Perhaps as the Bill  
does not refer to Public

to the time when she was a prisoner in England and was imploring the intervention of foreign powers, she wrote continually to her brother-in-law Charles IX of France and his mother Catherine de Medicis. Several ambassadors were sent by Charles to Queen Elizabeth to plead for Mary's release until Elizabeth complained bitterly of his interference. The memorandum on the project of QUEEN ELIZABETH'S MARRIAGE is interesting as a few years previously Charles himself had been suggested as a husband for Elizabeth. The son of Mary, Queen of Scots, referred to in the letter from Catherine de Medicis, eventually became James I of England and James VI of Scotland. Catherine's daughter gave birth to a girl who eventually married Archduke Albert VI.
